Summer Holiday Homework Session 2024-25 Class -2

Summer vacation is the best time to explore and create memories and acquire new skills.

It is the welcome break for the children to enjoy in their own way and do some creative work.

Seeking your co-operation as always as team work is dreamwork. Here are some interesting and fulfilled assignments for the children to learn and keep them occupied during the holidays.

Parents are requested to just guide the children to complete these assignments on their own

Wishing all of you a relaxing, joyful holidays filled with memorable time with your family

Thanks and Regards

Chand Janmeja

📌 Take out the print of the following 'Addition Game', get it laminated and play it with your family. (Instructions are given below) :

Who will be first to get from Earth to the Moon?

Instructions

- Choose an addition you want to work out on one of the uncovered hexagons on the game board.
- Work out the answer in your head. You can use the number line to help you.
- Say the calculation and the answer.
- Your partner will check in their head (or on a calculator).
- If you are right, you place a counter on the hexagon. Then it is your partner's turn. If you are wrong, you don't get to place a counter.
- The winner is the first person to complete an unbroken path of counters from the Earth to the Moon (path can go across, down, diagonally). See below.
